-  Pre-Elite 4 (85)
-  Post Game (100)

HOW TO GET FOCUS SASH AND CHOICE ITEMS FROM QUESTS (MGM)

-  Show a Pokémon with 125+ base stat in the respective stat (Chuck asks for a Pokémon with strong attack, show a mon with 125+ base attack like Terrakion).

ABOUT THE SHEET

-  All of the info in this sheet should be 100% accurate, because it was obtained via byte copying and using the Stat Scanner for EVs and IVs.
-  Even if something looks VERY wrong, that's how it is in-game. Though, feel free to report text typos if you ever find those.
-  Most of the opposing Pokémon's moves in this sheet are PP maxed. If the team has a Paldea Pokémon, it's likely that all the Pokémon in the team have PP maxed moves.
-  *Generally*, if a Pokémon has Gyro Ball in its moveset or is part of a Trick Room team, you can safely assume 0 speed IVs.

- Rival's chosen starter determines what team he gets. If he has the Squirtle team, that means the player chose a Fire-type starter Pokémon.
- Status moves don't have a type icon near them, for the reader to identify damaging moves and their types better.
- In Minimal Grinding Mode, opponents don't have EVs. Except for one specific case which is the Ghost Marowak, having 252 HP EVs.
- After you become the Champion, every level scale (excluding Postgame trainers) will be two levels higher.
- All speed stats are determined based on the point when you're expected to battle with the trainer at that specific juncture in the game.
